

COMPOSTABLE LABELS

Our compostable labels are crafted with a specialized material that sets a new standard for eco-friendliness.

Unlike conventional labels that contribute to landfill waste, our compostable labels undergo a natural decomposition process, returning valuable nutrients to the soil and leaving no harmful residues behind.

Compostable Vs Biodegradable

While biodegradable products do break down over time, they may leave behind lingering residues or require an extended period for complete degradation.

In contrast, our compostable labels are designed to undergo a specific composting process, ensuring thorough breakdown and yielding nutrient-rich compost that enriches the soil—a clear advantage over conventional biodegradable alternatives.

EC1935/EC2023

Meeting International Standards

Our compostable labels meet and surpass the industry's highest standards. They are fully compliant with European food regulation 1935/2004/EC for direct food contact with dry, non-fatty food. Additionally, these labels have been certified according to DIN EN 13432 for both biodegradability and compostability and are OK compost-certified under the tracking number S259.

This dedication to meeting rigorous criteria ensures your brand's commitment to sustainability and environmentally responsible practices.

Versatile Applications

Suitable for cannabis, food, disposable containers, and grocery applications, our compostable labels not only elevate your products' branding but also demonstrate your unwavering commitment to environmental preservation.

As conscientious consumers increasingly seek eco-conscious choices, our compostable labels position your brand at the forefront of sustainability.

Customization Options Available

Our wide range of compostable labels, including circular, barbell, dogbone, oval, and rectangular shapes, caters to diverse packaging needs.

We offer customization options, such as tailored sizes, unique shapes, specific materials, and personalized artwork, to meet your application requirements perfectly. Labels can be printed with your logos, customized text, or whatever else suits your needs.

Choose our compostable labels to showcase your commitment to sustainability while promoting your brand with eco-friendly packaging solutions.
